Never-Morgan

The marriage of Roland S. Nevers and Mildred M. Morgan took place at the home of Rev. M. O. Baltzer Tuesday at 9 o'clock in the forenoon. The bride wore a midnight blue traveling suit with hat and gloves to match. After the ceremony, they left town in an automobile for a brief honeymoon, the place not mentioned. On their return they will occupy apartments recently furnished in the Merritt Welch residence on Main street. At home after Oct. 27. No cards.

Mrs. Nevers is the daughter of Allie and the late Elizabeth (Wheeler) Morgan of Bethel. She was educated in the schools at Bethel and prominent in the Woman's Relief Corps in that town. Coming to Norway some two years ago, she secured employment at the Carroll, Jellerson, Shoe Co., where she is still engaged. Mrs. Nevers is a member of the Norway Congregational church, the C. E. and a teacher in the Sunday school.

The bridegroom is the son of Mr. and Mrs. Percy H. Nevers of Norway. He graduated from Norway high school in 1913 and was employed in the cutting room at the Carroll, Jellerson Shoe Co. He is now in the Medical Corps to which he has been called into the service. He has served a year in France with the 54th Division and other military organizations returning March 27, 1918 as corporal.

"Duties," a name he carried overseas from Maine, has been prominent in athletics particularly in amateur baseball and basketball. He has the same position in the Carroll, Jellerson factory as before his enlistment.

The date for the wedding was kept a perfect secret, but a word passed the senior to the pastor and box shop friends at the factory. They were in hiding until the couple left the parsonage then a perfect barrage of confetti was laid down while the victims were racing for shelter in their new home.

The wedding presents included furniture, cut glass, silverware, china and many other useful gifts.

Note From Dr. Trufant

In a letter from Dr. L. H. Trufant of Waco, Texas, who formerly lived in Norway, he says: "We are very pleasantly situated here. Waco is a city of about sixty-five thousand population, surrounded by a very rich agricultural community. In fact, over one-fifth of the world's cotton supply is raised within a radius of fifty miles of here. The land is a rich, coal-black loam and contrasts beautifully with the cotton now in full bloom."

I judge from the letters received from Maine that the climate is pleasant here thus far. It has been hot here all the time. In the winter season the thermometer occasionally drops to freezing but only for a day or so. The water pipes are laid just six inches under the ground so there cannot be much frost here.

"House and office rent here is very high, but general living expenses are lower, if anything, than in Maine. Meats are especially low as we can get the nicest cuts of steaks for 10 cents a pound. "I wish Norway had a better climate all through here. This one county has expended over five million dollars in improving the roads. Nearly all are Tarvia and it is certainly a pleasure to go out in the car."

Note From Mrs. Alma Pendexter Hayden

The King and Queen of Belgium have just made a short visit to Niagara Falls on a sight seeing tour.

They left their car at Echota and rode to the Falls in autos. While they were at the Falls for about an hour the public was prohibited from crossing the bridge. Many citizens of the Falls did not know of their visit until the last minute but they hastened to the scene at about 10 o'clock and waited for the Royal party to return.

A courtly riding on a wheel and bearing the Belgian flag said next car so we gave our attention to that car which bore the King.

You would know him from his picture immediately. A stately figure in uniform and at salute but smiling at the crowd as he went slowly by. I was a few feet from the auto as it came over the bridge and was glad to see the kingling king.

In the next auto was Queen Elizabeth simply dressed, a little quiet looking woman with a sad face. Her smile was rare and friendly and you could feel to love the Royal pair for the dangers they had passed.

In the next auto was prince Leopold in uniform. He is about 19. That day the Niagara Falls and Buffalo papers printed his poem "A Little Land of Belgium," which was written during the war and sent to king Albert. At the time the king had removed to Ostend and I did not know just how to reach him, but I sent the poem to him. I was very glad to see the letter which he sent me in reply. The letter was written in French with a coronet at the top.

This letter was reproduced in the Niagara Falls papers on the day of his visit. The brave couple are an inspiration as you think what a noble character a King or Queen can be.

They are more appreciated perhaps in comparison with the monarchs who run away in times of danger leaving their people to their fate. I am glad to have seen a kingling king, a manly man and a soldierly soldier.

Norway Man Wins High Rank

In an article of a Knight of Pythias paper appears an article of local interest concerning H. F. Ames, who it will be remembered, resided in Norway until about ten years ago before going to California. His father was Capt. Ames who ran the first steamboat on the lake.

The article tells of a meeting of the Third Regiment, California Brigade, Uniform Rank Knights of Pythias being recently held. Brig. General H. F. Ames who had just been elected brigadier commander of California was present. At the close of the meeting, Mrs. H. F. Ames wife of Brig. Gen. Ames was escorted to the lodge room and in a few well chosen words presented the regiment with a hand some regimental banner. Mrs. Ames was presented with a handsome banner which was engraved, "Third Regiment, California Brigade" and by a unanimous vote Mrs. Ames was adopted a daughter of the Third Regiment. With Gen. Ames at the head of the brigade and the support of the officers, great success is expected for the coming year's work of the order.

Corns 'Tween Toes? Use Easy "Gets-It"

Any Corn or Callus Comes Off Peacefully, Gloriously. Never Fails.

It is easy for "Gets-It" to reach "hard-to-get-at" corns, and better yet, it is easy to remove them, because "Gets-It" makes them come

Any Corn Peel Off With "Gets-It"

right off just like a banana peel. You can try to dig or drag out your corns with a knife, or slice them with a "bloody" razor, or use bandages and tape and wrap up your feet into a package, but that's the "treat-em-rough" painful, foolish way. Use 2 or 3 drops of "Gets-It"—that's the peaceful, sure, common-sense way that never fails. You reach the corn easily with the little glass rod in the cork of every "Gets-It" bottle. It does not hurt the true flesh. Try it, trot and smile! It's a blessing, never fails. "Gets-It" the only sure, guaranteed, money-back, corn-remover, costs but a trifle at any drug store. Mfd by E. Greater Flexibility of Control

THE car which gives you the greatest
pleasure and satisfaction in driving is the
one that has power plus in the pinches.

the grades and glides along through traffic
crowded thoroughfares without your shifting
gears continuously.

that you can control, that responds to your
slightest wish.

That's the car you love to drive.
That can be your car regardless of its
make, if you equip it with an "Autometric"
Carburetor.

The "Autometric" Carburetor feeds the
correct mixture for all speeds for any car.

No matter what speed you travel, your car

more. And it's fed as a hot dry gas, not a
partially vaporized mist or spray.

That's what gives you greater flexibility
of control when you use an "Autometric."

garage man put an "Autometric" on your

Pile Sufferers! Clever Ohio Chemist Says This Great Prescription Taken Internally Has Never Failed

Even chronic cases of 20 to 30 years'
standing, with profuse bleeding,
have been completely cured
in from three to ten days.

No discovery of recent years in the field
of medicine has caused such a stir amongst the
medical profession as the recent discovery that
piles can be successfully treated and cured
druggists as Miro Pile Remedy.

It has been proved that so-called external
remedies applied or inserted into the rectum
cannot cure piles and at the best only give
temporary relief. This is also true of surgical
operations which simply remove them after
the trouble.

This prescription, although taken internally,
is not digested in the stomach, but is rapidly
passed on unchanged to the intestines in

a short time, reaching the exact place where
by its soothing, healing action, it first attacks
all inflammation and then by direct contact
with all ulcers and piles, causes them to heal
and disappear forever.

Blessed relief often comes in two or three days
that have resisted all known treatments and
operation, really wonderful results have been
accomplished.

The author of this amazing discovery dis-
solves all sufferers to know that he does not
want a cent of anyone's money unless Miro
Pile Remedy decisively cures even in the
most cases and he has instructed druggists
everywhere to guarantee it in every
case of blind, bleeding or protruding piles.

IMPORTANT—What is known as itching
piles are not piles in the true sense of the
word, although this condition may accompany
a true case of piles. For this condition Miro
Pile Ointment has been prepared as in such
cases it is not necessary to take the internal
prescription.

WOODSTOCK

The Woodstock Board of Trade held
an important meeting Saturday evening
in the V. L. S. Hall and several com-
mittees reported. The Board have secured
the rent formerly occupied by the family
of Archie Verville for their headquarters.
This is a large rent and doubtless part
of it will be kept open as club rooms. At
this same meeting plans were made for
a big celebration to the returned soldiers
of this vicinity to be held within a very
short time. The last of Woodstock's boys
is now on his way home.

The annual freshman reception will be
held in the grange hall next Friday even-
ing.

The classes in the high school are pre-
paring for the annual interclass track
meet to be held October 17. The gram-
mar school meet will come the day be-
fore.

Outdoor basket ball practice started on
the high school grounds Monday. A large
squad reported for the first practice and
although the boys have had no experience
the prospects for a fast team are good.

The Woodstock Athletic Club have elec-
ted J. D. Farnum manager of their bas-
ket ball team. The club expects to put
a very fast team onto the floor this win-
ter and manager Farnum will start at
once to arrange the schedule. All those
interested in forming a local league sim-
ilar to the one organized last spring in
baseball should give their names to Man-
ager Farnum so he can arrange a schedule
for the teams. The Club is planning to
present a minstrel show before long and
a committee appointed at the last meet-
ing is already hard at work.

Through the kindness of Myrtle Bacon
the class in Home Economy in the high
school are able to use the little Jap for
their lessons in cooking. Through the
generosity of another citizen it is expected
that a new Singer sewing machine will
be installed in the high school building
soon for the use of this class. The class
recently formed a club and elected the
following officers:

Pres.—Gwendolyn Bartlett.
Vice Pres.—Charlotte Douglass.
Secretary—Edith Buck.
Treas.—Hazel Griffin.

They chose as a name, the Ninefous
Club.
Harold Lurvey who has just returned
from France, spoke to the high school

esting and instructive way of his travels
in England, France, Italy and Germany
and told of the customs of the peoples
there.

YOU certainly get yours when you lay your smokecards on the table,
call for a tidy red tin or a toppy red bag of Prince Albert and roll a
makin's cigarette! You'll want to hire a statistical bureau to keep count
of your smokestunts! Why, you never dreamed of the sport that lies
awaiting your call in a home rolled cigarette when it's P. A. for the
packing!

Talk about flavor! Man, man, you haven't got the listen of half your
smokecareer until you know what rolling 'em with P. A. can do for your
contentment! And, back of P. A.'s flavor, and rare fragrance—proofs of
Prince Albert's quality—stands our exclusive patented process that
cuts out bite and parch! With P. A. your smokesong in a makin's ciga-
rette will outlast any phonograph record you ever heard! Prince Albert
is a cinch to roll. It's crimp cut and stays put like a regular pal!

Prince Albert upsets any notion you ever had as to how delightful a

KEPT KITTEN CLEAN

Sometimes a child's attention to her pet is over-zealous. A 3-year-old hearing her mother say that the pet kitten should be kept clean if it was to remain in the house, did considerable thinking for a 3-year-old.

Then the kitten began to appear bedraggled and wet every morning and mother could not account for it. She never thought of asking explanation from the child, who merely appeared triumphant at kitty's soiled appearance. Finally, one morning, mother heard a rowling and spluttering in the refrigerator room and hurrying in found the 3-year-old industriously jumping the kitten up and down in the refrigerator pan of water. As the water was ice cold the small animal was not enjoying the bath at all, but the 3-year-old kept a firm hold and soiled the kitten good. Looking in and seeing her mother, she said, triumphantly: "Keeping kitty clean so's he can stay in the house."—Springfield Union.

BASEBALL

Norway 12; Ward Eight 4

The second of the three game series between Norway town team and Ward Eight Tigers was played Saturday afternoon at the fair grounds and resulted in a score of 12 to 4 in favor of the town team.

As the series now stands each team has won one game and the deciding game will be played Saturday, Oct. 11, weather permitting.

A good sized crowd was present; the threatening weather probably keeping many at home.

It was a good game to watch, notwithstanding the wide margin between the scores. Up to the sixth inning it was close, but after this inning the hits and misplays began to show in the score column.

Neither side scored in the first. In the first half of the second, Norway made two on two bases on balls and hits by Traf-ton and Packard; two in the sixth on a hit, two errors and two fielder's choice; two in the seventh on a double by Rowe, an error and a single by Packard; three in the eighth on two hits, 3 errors and a passed ball; three in the ninth on a base on balls, an error, a single by Shepard and Rowe's second two-bagger, total 12.

Ward Eight made one in the third on a base on balls, and Rowe's throw to third to catch Williams, which found its way home at third, the ball rolling out into the crowd back of third. They gathered one more in the eighth on an error, a hit by pitcher and Palmer's pinch hit, a hit by Callahan, and two in the ninth on an error, a stolen base, a base on balls and a hit by LaFrance, total 4.

Norway showed four new faces in the line-up: Marcotte at short, Finley at third, Packard at second, and Greenough behind the bat. Ward Eight showed Callahan at center for part of the game, being replaced by Palmer.

The slippery condition of the ball and playing field undoubtedly accounts for many of the misplays.

The big hitting was done by Rowe, Finley, Traf-ton, Packard, a fine two-bagger by A. Klein and a pinch hit by Palmer.

The fielding feature was the double play in the second when Finley raced all the way to the plate for a pop fly off J. Kline's bat, making a sloe-sneaking catch and doubling up Hunt off first.

Next Game Settles It

Norway and Ward 8 Tigers get set once more for the last tug. This will be a rubber game and the third in a series to satisfy the craving for swift baseball. Game called at 2.30 Saturday on the fair grounds. Weather permitting, one of the largest baseball crowds assembled there in years will appear to witness a clinch not soon forgotten.

It is understood both managers will send on practically the same outfit as appeared last Saturday. Believe me, this is to register action, and neither's combat between Bacon and Hunt may develop at the last provocation. Manager Billy White will introduce again Tom Greenough; who caught Chief Bender of the Richmond, (Va.) team, champion of the Southern League. His next trump is Billy Marcotte, star short stop in the Haverhill high school outfit, and good enough for the major league managers to squabble over. Another strong card will be in the person of Jim Fenley on third, formerly with the Haverhill New England league team. Our local artists are well known and will get onto their job on the words "play ball."

The Ward 8 Tigers will appear ready to fight for the big end of the gate money. In this contest, as in the two preceding games, college players are to make the field in Tiger uniform to make an opposition party against the combination representing Norway. Probably two umpires will officiate in this critical stage.

Sam Klein went to the St. Marie Hospital at Lewiston Tuesday where he was to be operated on for appendicitis. Virginia Hall strained the ligaments in her ankle while going down the school-ous, she is confined to the house for two weeks, probably.

Mrs. E. F. Bicknell will entertain the Ladies' Sewing Circle at her home on Orchard street, Friday afternoon.

Stone left Monday evening, over the Grand Trunk for an extended trip through the west. They stop one day in Montreal, then attend the world series in Chicago. Making a long jump they will visit Mrs. J. N. French in Lincoln, Neb. A lady eighty years of age and well known in Norway. A short stop in St. Louis, a weeks visit with his son, Carl Stone and family at Indianapolis, Indiana, with brief calls along the way home will be included in the last half of a pleasant journey.

WEST PARIS

Mrs. Mary Elizabeth Purinton died at her home on High street, Thursday afternoon at midnight. She has been a great sufferer with rheumatism for a number of years, which brought on a complication of other diseases, making the last few weeks almost unbearable if it had not been for her sweet, amiable disposition and christian courage and hope ever looking forward to that place where pain is unknown. Her thought was ever for others to shield them and to sympathize. While she has been unable to do much about the house for the past year, yet she was confined to her bed less than a week.

She was born in Bartlett, N. H., Aug. 20, 1851, was married to Charles D. Purinton, Nov. 22, 1868. They lived in Madison and Dummer, N. H., moving to Milton seventeen years ago and here three years ago. Besides the husband, she leaves a son, Augustus E. of Conway, N. H., and a daughter, Persis, who lives at home and one sister, Mrs. L. D. Yates of Portland.

In religion her preference was Methodist. She joined the Baptist church in Madison, N. H., in 1889. The funeral was held Sunday at 1 p. m. at her late home, Rev. H. H. Hathaway officiated. Appropriate music by Mrs. P. S. Farnum and Mrs. Abner Mann. Interment was at Bryant's Pond beside her sister, Mrs. Lucilla Sessions, who died three years ago.

Rev. and Mrs. H. A. Marley left Wednesday morning for Stockholm, Ill., where on Sunday, Mr. Marley will preach in the Universalist church where his daughter has been preaching for the past year and in which she will be ordained Tuesday evening. Her father will preach the ordination sermon. Later he expects to visit his mother and other relatives in Pennsylvania and preach the following Sunday in his home church. From there he will go to Baltimore, Md., to attend the Universalist General Convention and expects to be gone four weeks.

Rev. H. H. Hathaway attended the Methodist meeting of ministers in Lewiston, Monday and Tuesday.

Berry-Peabody There was a quiet wedding at the home of Mr. and Mrs. O. L. Peabody of Trap Corner Saturday at 1:30 p. m., when their daughter was married to Rupert T. Berry by D. A. Ball of Augusta. Only immediate relatives of each were present and Mrs. Mary Stevens and daughter, Minnie, who witnessed the ceremony, and Mrs. Ball. The bride's party slipped away quietly to Rumford by auto and thence on a wedding trip known only to themselves.

Mrs. Berry is a graduate of South Paris High and for the past year has been clerking at George Devine's general store.

Mr. Berry is the youngest son of Mrs. Emma Berry and the late G. W. Berry. He was educated at South Paris High. He enlisted in the U. S. navy in 1917 and served until the close of the war, making twelve trips across. Since his discharge he has bought out the hardware store of the firm G. W. Berry and son. Both young people are highly esteemed and both belong to the grange, she being the secretary, and both are members of the Universalist church. On their return they will reside over the store.

The Ladies' Aid and the Ladies' Social Circle of the Federated Churches are planning to have a harvest dinner and supper and entertainment sometime during the last of October.

Cor. Young of Cambridge, Mass., a former resident here, has been visiting his aunt, Mrs. Charles Dunham.

Mrs. Lesmore Currier of Bryant's Pond, and son, Harold Lurvey, who has just returned from overseas, have been visiting at 444 Main street.

Mrs. Martha Dunham has gone to Arlington, Mass., to visit her niece. She will visit her son, W. F. Dunham, in East Saugus. She expects to be gone a month.

Blumer Waterhouse had an accident while coming home from school. He jumped onto the back of a wagon and was thrown into the wheel, where his clothes caught. A team coming up behind just in time, saved him from worse damage. As it was, several stitches had to be sewn in his knee. His face was bruised considerably.

Cop. Yates broke her wrist by falling while at play at school, Monday. She is doing well.

How to Make Lunch Cloths of Embroidered Damask

Some of the newest lunch cloths are being shown of embroidered damask. The material itself is unfigured, but the embroidery is usually elaborate. A very silky mercerized cotton is employed for working out the design, and this, with the soft sheen of the damask, makes a very rich cloth.

These cloths are more practical when made in the size of a large centerpiece; for then the individual plate and tumbler doilies of plain lace edged damask can be used to protect the polished table surface and are more easily laundered than the heavily embroidered cover.

Madell—Did you notice that Dick gave me his first dance last night?

BETHEL

Shower to Mildred Morgan Mrs. W. H. Young was hostess at a surprise shower given Mildred Morgan of Norway, formerly of this town. The pleasant gathering was held Friday evening at Mrs. Young's home and tendered in honor of Miss Morgan's approaching marriage to Roland S. Nevers of Norway, a nephew of the hostess. Mrs. Ida Douglas, a relative of Mr. Nevers, assisted in the receiving.

The gifts were brought to the scene in a decorated basket, with a small express wagon and two little girls as means of delivery. After the parcels had been opened and the bride-to-be recovered from the many surprises they contained, a short program was given. Mrs. Nellie B. Davis read an original poem and Esther Tyler rendered a piano solo. After ice cream and cake was served, the party made merry until a late hour.

The shower was given under the auspices of the Women's Relief Corps of which Miss Morgan is a member.

RED CROSS WORKER

SICK TWO YEARS

Tells How She Got Well

"Miss G. L. Baird of 30 Glenville Ave., Allston, Mass., writes: 'I have been sick almost two years and four doctors with little or no relief. I was growing thin every day, went from 135 to 111. I was so discouraged I didn't know what to do. One night about three weeks ago, I picked up a paper and saw your Dr. True's Clinic, Family Laxative and Worm Expeller, advertised. I made up my mind I had worms, and the next day bought a small bottle of Dr. True's Clinic. I was surprised at the result, stomach worms some a finger long, so much slimy, that looked as though it was just the skin of worms. The day before I took Dr. True's Clinic, I thought I should go to bed with the cramping in my stomach. I feel like a new person, all my friends say I look so much better. I wouldn't have believed any one could feel so much better in such a short time. I can't give your medicine praise enough.'

"Signs of worms: constipation, offensive breath, swollen upper lip, sour stomach, deranged stomach, occasional pain and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of nose, itching of the rectum, short dry cough, grinding of the teeth, red points on the tongue, starting during sleep, etc."

Other children at Plummer's that day were Clarence Flint and wife, Clayton Tower, Roswell Nevers, Gerald and Kenneth Durgin, and not much of a day for callers either.

ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment.

Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

An Easy Way To Reduce Flesh

There isn't any reason why anyone should be too stout, when there's this much-tried, perfectly satisfactory remedy at A. L. Clark Drug Co. Tasso tablets (don't forget the name) are recommended by physicians and are guaranteed to be perfectly harmless. Refuse substitutes, if you cannot come to our store, we will mail Tasso to you.

4 Points of Economy

Eleven—Satisfaction
 A very wise point, because it does not cost a lot of intelligence to understand that good clothes are pretty generally the cheapest in the long run. We believe in more real and lasting satisfaction than in a suit or overcoat than a false one.
 Bringing your clothes wants to this, then quickly and satisfactorily.
 Because of our low expenses, it costs lower prices than the City stores. And this is the only store that sells.

Spencer's Clothes
 Being no copyright on the name, Spencer's Clothes sound very much like a brand. But their betterness becomes apparent on examination of their clear and bright fabrics and their finely cut and made. It becomes still more apparent when their superior shape-retaining and stain-making qualities become known. We know of no better clothes than these for the cost more.

Now All You Good Fellows, Come Fill Up Your Pipes

15c

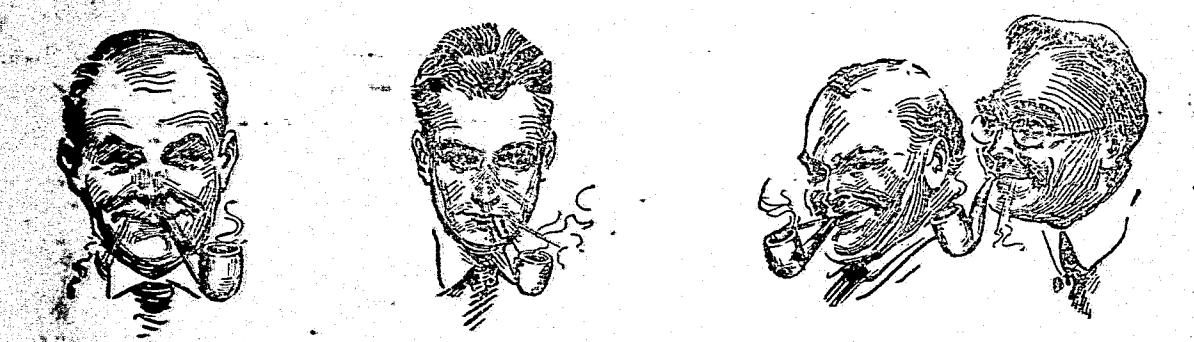

The Velvet tin is twice as big as shown here

If ever men are "Tom" and "Bill" to each other, it's when good pipes are a-going. If ever good pipes go their best, 'tis when Velvet's in the bowl.

For Velvet is a mighty friendly smoke. Kentucky Burley is the leaf that Nature made for pipes. Wholesome and hearty, honest as the day. And Velvet is that same good Burley leaf, brought to mellow middle age.

For eight long seasons Velvet "meditates" in wooden hogsheads, throwing off the rawness of "young" tobacco—truly "ageing in the wood." Out Velvet comes—cool, calm and generous—the tobacco Nature made good, kept good and made better.

Velvet's sweetness is the sweetness of good tobacco, not "put on" like "frosting" on a cake. Its mildness comes from natural ageing, not from having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarette. Roll one.

As good old Velvet Joe says:

"Fill yo' heart with friendly thoughts,
 Yo' mouth with friendly smoke—
 An' let the old world wag."

Drawing Horses
 The events didn't fill as Westleigh of Mason was the only contestant line up for the event. The drag was loaded with 6700 pounds and the pair walked off easily with the rock pile.

Notes
 Deputy Sheriff, Harry O. Stimson of Norway was on official duty through the fair but found everything conducted in a law abiding manner.
 Waterford fair has been an organized institution since 1884. The name World's Fair was not applied until a dozen years later. In its infancy the attendance numbered only a few hundred drawn from Waterford hills. The great amusement highway was practically unknown. Only a few scattered hucksters peddled lunches. Pitching baseballs into a pail was the first device of skill to be followed by the "spindle game" giving the winner a dollar on a ten cent investment.
 An old timer harking back on the past mentioned with a sigh the almost forgotten "hoss" races contested on the level strip of road in the pine woods beyond Lynnhaven. A bag of oats was the purse and local jockeys went after it with a fight to the finish. Selling out before the race was unknown in those days.
 Several mentioned the famous La Grange dog show which was the greatest event for Waterford until Prof. Eliot appeared with a merry-go-round which would stay in repair at least half the time. The band composed largely of Saunderson's boys was also brought up as a pleasant memory of by gone days.
 Other things gone into oblivion are the county consable struggling to hold in check the John Barlycorn celebrators, who turned the quiet village into a nightmare during the wee' sma' hours, and three-fingered Pingree the wizard with a "fiddle".
 The present orderly conditions speak well for the change in public opinion. It gives the pessimist a chance to do a little thinking along the opposite line.
 Geo. H. Babb of Sebago, State Industry was in charge of the moth display exhibited by Maine Department of Agriculture. Between ninety and a hundred moths showing insect pests in various stages were arranged for educational purposes. Several insect friends of the farmer were also shown and their good qualities extolled. One stress has been laid upon the corn borer the past season but according to Inspector Babb we had them years ago. He showed specimens of the American Corn Stalk borer, the common Corn Stalk borer, the Ear worm and the woolly borer. The menace to the eastern farmer is the European borer which the Department of Horticulture is combating. Mr. Babb has been a prominent teacher in Portland and with just pride claims to be the father of manual training in this state. Carpentering was introduced in the schools against strong opposition, but he lives to see this and other practical things on the regular curriculum. The insector would have practical entomology taught in the public schools. He points out it as the instruction was applied to the orchard and crops. The boy of to-day is the man of to-morrow.
 The "Girlie" shows that have brought forth unfavorable comment through the state failed to reach Waterford. "Stella" had been playing to men only, but the show was pruned carefully and open to both sexes. Another little dancing "lady" was there but nothing No ballyho was used, and the dancing ed discs were not paraded before the young people as the highest type of mental and physical development. Close observers note that public opinion is against this class that play within their legal rights, but leap far beyond the line of common decency in raucous and deportment. The time is not far distant when agricultural societies must separate the sheep from the goats along the mid-way tents as they have done with gambling schemes.

Oh, stomach

Those people who suffer with the distressing symptoms attending chronic dyspepsia will be interested to read the following voluntary testimonial:—
 "I have kept the 'L. F.' Atwood's Medicine in the house for over twenty years and have received great benefit from it. It does seem as though I could not keep house without it. In the past I have had a very bad stomach trouble, and could hardly do my work. After taking a few bottles of the true 'L. F.' Atwood's Medicine, I became much better. My niece has also been greatly benefited by it. We both are willing to recommend the medicine to all who need a remedy for dyspepsia and constipation."
